DOCKET FILE COPY ORIGINAL

There is no showing of a sizable demand for this proposed FRS. This demand is only shown by the electronic manufactures and not by the users of the current Part 95 General Mobile Radio Service (GMRS).

There is a strong showing that the current General Mobile Radio Service (GMRS) users oppose this proposed FRS and they fully understand the regulatory demands placed upon them with the current part 95 Rules and Regulations.

FRS is not without its supporters, but it is persons and big business who have a product to sell and make profit from this proposal, and not the individual users.

## II. CONCLUSION

For all the reasons set forth above and the initial comments, I Kerry Cochran urges the Commission **NOT** to authorize the FRS proposal.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Kerry Cochran", with a stylized flourish at the end.
